ARTICLE I

Purpose

Effective as of January 1, 2019, the El Paso County Board of Retirement adopted the amended and restated El Paso County Retirement Plan, as set forth herein, to continue and replace the Plan previously in effect. The Plan and Retirement Fund constitute a “governmental plan” within the meaning of Section 414(d) of the Internal Revenue Code of 1986 and are intended to meet the requirements of Sections 401(a) and 501(a) of the Internal Revenue Code of 1986 that apply to governmental plans.

The Plan and the separate related Retirement Fund forming a part hereof were established and shall be maintained for the exclusive benefit of the eligible employees of the Employer, as defined in ARTICLE II, and their Beneficiaries. No part of the Retirement Fund can ever revert to the Employer except as hereinafter provided, or be used for or diverted to purposes other than the exclusive benefit of the employees of the Employer and their beneficiaries.

This amendment and restatement is effective as of January 1, 2019, unless provided otherwise. This amendment and restatement of the Plan shall not, in any way, affect the rights of former Employees who participated in said Plan and who either retired or otherwise terminated their employment prior to January 1, 2019 and do not resume employment with an Employer. The rights, if any, of such former Employees and of their beneficiaries and the amounts of their benefits, if any, shall continue to be governed by the provisions of the Plan as it was in effect on December 31, 2018, or the date, if earlier, of their retirement or termination of employment, unless specifically provided otherwise herein, or as the result of future amendments to this amended and restated Plan.

ARTICLE II

Definitions

Section 1. Name. The retirement plan as set forth in this Resolution shall be known as the El Paso County Retirement Plan and is hereinafter referred to as the Plan.

Section 2. Board of Retirement. The management of the retirement system set forth in this Resolution shall be vested in a Board of Retirement consisting of five voting members, one of whom shall be the County Treasurer, two of whom shall be Employees of the participating Employers who are elected by employees of the Employers, and two of whom shall be registered electors of the County to be appointed by the Board of County Commissioners of El Paso County. The two Board members who are elected by the Employees of the participating Employers shall not be employed by the same department. The Board of Retirement shall by its own rules establish staggered four-year terms and its Board members and their successors shall be selected as set forth in this section.

The voting members of the Board of Retirement may, at their discretion, appoint associate members as deemed necessary. An associate member shall have no voting rights.

Section 3. Definitions. Unless the context otherwise requires, the definitions and general provisions contained in this Section govern the construction of this restated Plan.

(a) “Accrued Benefit” means the benefit determined under ARTICLE VI using Final Average Monthly Compensation and Credited Service as of the date of calculation and expressed in the form of a monthly life annuity with a minimum of 120 monthly payments, commencing at Normal Retirement Date.

(b) “Accumulated Contributions” means the sum of the Member’s contributions to this Plan, together with interest thereon at the rate of 3½% per annum compounded annually through June 30, 1974, at 4½% per annum compounded annually from July 1, 1974 through July 31, 1978, at 5% per annum compounded annually from August 1, 1978 through December 31, 1979, at 6% per annum compounded annually from January 1, 1980 through December 31, 1982, at 7% per annum compounded annually from January 1, 1983 through December 31, 1986, at 5% per annum compounded annually from January 1, 1987 through December 31, 1995, at 6% per annum compounded annually from January 1, 1996 through June 30, 2005, and at 3% per annum compounded monthly from July 1, 2005, or at such other future rate as may be deemed reasonable and proper by the Retirement Board.

(c) “Actuarial (or Actuarially) Equivalent” means equality in the value of the aggregate amounts expected to be received under different forms of payment based on interest rate and mortality assumptions as defined below unless otherwise specifically provided in the plan:

(i) Interest rate assumption for alternative periodic benefits. The interest rate used for purposes of computing alternative periodic forms of benefits shall be 8.0%.

(ii) Mortality assumption. The mortality assumption for calculations based upon the mortality of a Member or Beneficiary shall be taken from RP-2000 Projected Generationally with Scale MP-2017 (no age setbacks). Said mortality assumption shall be used until changed by Plan amendment.

(d) “Beneficiary” means the individual(s) or trust(s) designated by a Member to receive any benefits under the Plan that are unpaid at the Member’s death.

(e) “Board” or “Retirement Board” means the El Paso County Board of Retirement.

(f) “Compensation” means the total regular compensation paid to the Member, reflecting the regular or hourly base wage rate, before any payroll deductions for income tax, Social Security, group insurance, or any other purpose, excluding bonuses, extra pay, overtime pay, worker’s compensation, single-sum payments received in lieu of accrued vacation and sick leave upon termination of employment or during the course of employment, noncash amounts (such as car allowances, car usage, expense reimbursements, etc.), required contributions by the Employers under this Plan, or for Social Security, group insurance, retainers’ fees under contract, or the like, and including any reduced or deferred compensation that is elected under Sections 125, 414(h), or 457 of the Internal Revenue Code. Amounts under Section 125 of the Internal Revenue Code include any amounts not available to a Member in cash in lieu of group health coverage because the Member is unable to certify that he or she has other health coverage. An amount will be treated as an amount under Section 125 of the Internal Revenue Code only if the Employer does not request or collect information regarding the Member’s other health coverage as part of the enrollment process under the health plan. For purposes of applying the limitation on benefits set forth in Article XV, Section 3, Compensation shall include differential wage payments to a Member who does not currently perform services for an Employer by reason of qualified military service (as defined in Code Section 414(u)) to the extent such payments do not exceed the amounts the Member would have received if the Member had continued to perform services for an Employer rather than entering qualified military service.

For purposes of applying the limitations in Article XV, Section 3 and Code § 415, Compensation shall also include the following amounts if paid within the later of 2½ months after severance from employment or the end of the limitation year that includes the date of severance from employment: (i) amounts that, absent a severance from employment, would have been paid to the employee had the employee continued in employment such as regular pay, overtime, bonuses, commissions, shift differentials, and similar compensation, (ii) payments for *bona fide* sick, vacation, or other leave but only if the employee would have been able to use the leave if employment had continued, and (iii) amounts received by the employee pursuant to a nonqualified unfunded deferred

compensation plan and would have been paid at the same time if employment had continued, but only to the extent includible in gross income.

In addition to other applicable limitations set forth in the Plan, and notwithstanding any other provision of the Plan to the contrary, the annual compensation of each “Noneligible Member” taken into account under the Plan shall not exceed \$200,000. Annual compensation means compensation during the Plan Year or such other 12-consecutive month period over which compensation is otherwise measured under the plan (the “determination period”). If a determination period consists of fewer than 12 months, the OBRA ‘93 annual compensation limit will be multiplied by a fraction, the numerator of which is the number of months in the determination period, and the denominator of which is 12. A “Noneligible Member” is any Member who first became a Member in the Plan during a Plan Year beginning on or after January 1, 1996.

The \$200,000 limit on annual compensation shall be adjusted for cost-of-living increases in accordance with Section 401(a)(17)(B) of the Internal Revenue Code. The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within the calendar year. In determining benefit accruals in Plan Years beginning after December 31, 2001, the annual compensation limit in the preceding paragraph for determination periods beginning before January 1, 2002, shall be \$150,000 for any determination period beginning in 1996 or earlier, \$160,000 for any determination period beginning in 1997, 1998, or 1999, and \$170,000 for any determination period beginning in 2000 or 2001.

(g) “County” means El Paso County.

(h) “Covered Employee” shall mean a Full-Time Employee. Covered Employee shall not include (1) officers and employees of any federally funded program that specifically excludes the use of federal funds for retirement programs and (2) leased employees within the meaning of Code Section 414(n)(2).

(i) “Credited Service” means the sum of (1) any Past Service and Membership Service rendered by an employee as a Member, for which credit is allowed, and (2) service purchased under ARTICLE IV, Section 7.

(j) “Custodian” means the custodian referred to in ARTICLE XII as may be selected by the Retirement Board, and any successor Custodian selected by the Retirement Board.

(k) “Disability” or “Disabled” means a physical or mental condition rendering a Member totally and permanently disabled, as determined by eligibility for the receipt of disability benefits continuously until his Normal Retirement Date under either (i) the Employer’s long-term disability plan or (ii) Title II of the Federal Social Security Act, for the period of time from the commencement of his Disability (after any waiting period required under the Act).

(l) “Effective Date of this Plan” means September 1, 1967. This amended and restated Plan is effective as of January 1, 2019.

(m) “Employer” means: (i) El Paso County; (ii) El Paso County Public Health; (iii) Pikes Peak Library District; (iv) 4th Judicial District Attorney; (v) El Paso County Board of Retirement; and (vi) any other agency, district, or governmental organization with employees now in existence or hereafter formed that is authorized for participation in the Plan by the Retirement Board that has not withdrawn from participation pursuant to ARTICLE XVI.

(n) “Final Average Monthly Compensation” means 1/36th of a Member’s average compensation during the 36 successive paid calendar months of Credited Service out of his last 120 calendar months of Credited Service, which will produce the highest average monthly compensation, or his average Monthly Compensation during all calendar months of Credited Service, if less than thirty-six months. However, if a Member takes an unpaid leave of absence that is required under the Family Medical Leave Act of 1993 during any part of a calendar month, such month shall not be considered in determining the Member’s Final Average Monthly Compensation.

(o) “Full-Time Employee” means any employee, elected or appointed official defined as a full-time employee or as a job-share employee by the Employer’s Personnel Rules, Regulations and Policies. For purposes of this Plan, officers and employees of any federally funded program that specifically excludes the use of federal funds for retirement programs shall not be considered as Full-Time Employees and shall not be eligible for membership in this Plan.

(p) “Funding Agent” means any insurance company, trustee, custodian, or investment manager or adviser appointed by the Retirement Board as provided in ARTICLE XII.

(q) “Funding Agreement” means the insurance contract with the insurance company or a trust agreement with a trustee or custodian agreement with a custodian as approved by the Retirement Board for the purpose of the investment and management of Retirement Fund assets.

(r) “Insurance Company” means any insurance company or companies appointed by the Retirement Board as provided in ARTICLE XII.

(s) “Member” means any person included in the membership of this Plan as provided in ARTICLE III hereof.

(t) “Membership Service” means the period of service rendered by an Employee after August 31, 1967, for which credit is allowed. Membership Service will cease when a Member’s service as a Full-Time Employee terminates; provided however, that, effective for Members who commenced receiving Disability Retirement Benefits under the Plan on or after November 1, 1999 and prior to January 1, 2016, if a Member becomes Disabled, Membership Service shall include the period from the date on which the Member becomes Disabled through the earlier of (i) the Disabled Member's Disability Retirement Date or (ii) the date the Member is no longer Disabled.

(u) "Past Service" means the period of service rendered by an Employee prior to September 1, 1967, for which credit is allowed pursuant to ARTICLE IV, Section 2.

(v) "Plan Year" means the calendar year. However, the first Plan Year was a short Plan Year from September 1, 1967 through December 31, 1967.

(w) "Retired Member" means a former Member whose employment terminated by reason of retirement or Disability and who is receiving or is entitled to receive, or whose Beneficiary or estate is entitled to receive, benefits under this Plan.

(x) "Retirement Benefit" means any retirement benefit provided for in ARTICLE VI hereof.

(y) "Retirement Fund" or "Fund" means the "El Paso County Employees' Retirement Fund" maintained in accordance with the terms of the Funding Agreement, as from time to time amended, which constitutes a part of this Plan.

(z) "Terminated Vested Member" means a former Full-Time Employee whose employment has terminated for any reason other than retirement or Disability and who has elected to leave his Accumulated Contributions on deposit and who is entitled to receive, or whose Beneficiary or estate is entitled to receive, benefits under this Plan.

(aa) "Trustee" means the trustee referred to in ARTICLE XII as may be selected by the Retirement Board.

The masculine pronoun wherever used shall be interpreted to include the feminine, and singular words to include the plural.

The Plan does not define the term "spouse" which is used in Article VII, Section 7, Article VIII, Sections 7 and 9, Article IX, Section 5, Article XIII, Section 2. For purposes of clarity and compliance with applicable federal law, the term "spouse" shall be construed to mean, through September 15, 2013, the individual to whom a Participant is lawfully married according to the law of the state of the Participant's domicile and who is treated as a spouse under federal law. Effective September 16, 2013, the term "spouse" shall be construed to mean the individual to whom the Participant is lawfully married according to the law of the jurisdiction in which the married was celebrated and who is treated as a spouse under federal law. The term "spouse" shall include a partner in a Colorado civil union pursuant to Title 14, Article 15 of Colorado Revised Statutes.

ARTICLE III

Membership

Section 1. Commencement. Each Covered Employee shall become a Member on the date he is first employed as a Covered Employee. Membership in the Plan shall be a condition of employment for each Covered Employee, except as otherwise provided.

Section 2. Termination. Membership of any Member shall terminate upon the first to occur of the Member's death or the complete distribution to the Member of his interest in the Plan pursuant to ARTICLE V, ARTICLE VI, ARTICLE VII or ARTICLE IX, as applicable.

Section 3. Withdrawal. Once an Employee has become a Member of the Plan, he may not withdraw from membership in the Plan until his interest in the Plan has become distributable pursuant to ARTICLE V or ARTICLE IX, as applicable.

ARTICLE IV

Service

Section 1. Credited Service, which has been defined in Section 3(i) of ARTICLE II, as the sum of (1) a Member's Membership Service and any Past Service and (2) service purchased by the Member under Section 7 of this ARTICLE IV, shall be the only service on the basis of which benefits under this Plan shall be determined. The Credited Service of a Member shall be determined by the Retirement Board in a nondiscriminatory manner as provided herein. Credited Service shall not include the periods described in Section 5 and Section 6 of this ARTICLE IV.

Section 2. Past Service shall include any period of service commencing with the Employee's first hour of paid employment, not exceeding five years, rendered by a Member as a Full-Time Employee prior to September 1, 1967. Past Service shall be credited on the basis of 1/12th year for each month of such employment.

Section 3. Membership Service shall consist of all service of an Employee, commencing with his first hour of paid employment rendered as a Full-Time Employee after August 31, 1967, until his actual retirement date, or the date his service as a Full-Time Employee terminates, if earlier, subject to the following:

(a) The Membership Service for an employee who elected not to participate in the Plan on September 1, 1967 but elected to participate at a later date (pursuant to ARTICLE III, Section 1), shall commence on the date as of which his participation began, with no credit accrued for service prior to the date his contributions to the Plan commenced.

(b) Membership Service for those employees who elected to become Members of the Plan as of January 1, 1982 (pursuant to ARTICLE III, Section 3) shall commence as of January 1, 1982.

Membership Service shall be credited only for periods of paid service as a Full-Time Employee. Membership Service shall be credited on the basis of 1/12th year for each month of such service.

Section 4. Breaks in Service. For purposes of vesting, a Member who terminates service as a Full-Time Employee and returns to service as a Full-Time Employee shall receive credit for all Credited Service earned prior to termination of service.

For purposes of benefit accrual, a Member who terminates service as a Full-Time Employee, who receives a distribution of his Accumulated Contributions, and who returns to service as a Full-Time Employee shall lose all Credited Service earned prior to termination unless he makes the repayment described in the next sentence. If the rehired Member repays the Fund, within 48 months after the date of termination of service but not later than 12 months after the date of rehire, any amounts received because of his prior termination with interest pursuant to ARTICLE II, Section 3(b) from the date received to the date of repayment, the prior Credited

Service for which such amounts were received shall be restored. Effective January 1, 2002, the rehired Member may make the repayment described in the preceding sentence by a direct trustee to trustee transfer from a tax sheltered annuity pursuant to Code section 403(b)(13) or a deferred compensation plan pursuant to Code section 457(e)(17). All such direct trustee to trustee transfers shall be made in accordance with Code sections 415(k) and (n). A Member who is rehired more than 48 months after the date of termination of service may not make the repayment described in this paragraph.

Section 5. Effect of Other Plans. Credited Service shall not include any period on the basis of which a retirement benefit is payable under any other retirement or pension plan to which the Employer made contributions, other than benefits payable under the Federal Social Security Act.

Section 6. Miscellaneous. No period of Credited Service shall be deemed to be increased or extended by overtime. In determining all Credited Service, service for fractional years shall be allowed on the basis of 1/12th year for each month of such service.

Section 7. Purchase of Service Credit Relating to Noncovered Employment.

(a) A Member who has completed the number of years of Credited Service specified at the end of this subsection (a) may elect to purchase up to 5 years of service credit for any period of full-time, nonvested previous employment with any public or private employer in the United States or its territories, subject to the following conditions:

(i) The Member must provide certification from the previous employer as to the dates of employment;

(ii) The Member must provide certification from any retirement program covering such employment that the service credit to be purchased has not vested with that program; and

(iii) The Board shall establish appropriate rules by which a Member may purchase service credit where certification cannot be obtained, such as an employer no longer being in existence.

(iv) If the service to be purchased is “nonqualified service,” as defined in Code Section 415(n) (generally, non-governmental service), the Member must have completed at least the number of years of participation in the Plan specified at the end of this subsection (a) in addition to the completion of at least the number of years of Credited Service specified at the end of this subsection (a).

(v) One month of service credit may be purchased for each full month of full-time, nonvested, noncovered employment.

The following individuals must have at least 8 years of Credited Service and at least 8 years of participation:

(vi) Individuals who are new hires on or after January 1, 2013.

(vii) Individuals who are rehired on or after January 1, 2013 and who forfeited their unvested accrued benefit or took a withdrawal of their Accumulated Contributions and do not repay the amounts withdrawn pursuant to Article IV, Section 4.

The following individuals must have at least 5 years of Credited Service and at least 5 years of participation:

(viii) Individuals who are employed prior to January 1, 2012 and who, after termination of employment, are not rehired by an Employer.

(ix) Individuals who are rehired on or after January 1, 2013 and who either were vested in their accrued benefit when they terminated employment and/or took a withdrawal of their Accumulated Contributions and repay the amount withdrawn pursuant to Article IV, Section 4.

(b) The cost to purchase one month of service credit for noncovered employment shall be 12% of the average monthly Compensation received by the Member during the 36 consecutive calendar months of Credited Service preceding the date the purchase agreement is signed. Effective for purchases on and after March 1, 2003, the cost to purchase one month of service credit for noncovered employment shall be the “actuarial equivalent cost” as determined by the actuary for the Plan, using the following actuarial assumptions:

Interest	8%
Salary Scale	5%
Mortality Table	RP-2000 Projected Generationally with Scale MP-2017 (no age setbacks)

(c) Service credit purchases may be made by a lump-sum payment, by installment payments, or by direct rollover or participant rollover contributions of any pre-tax amounts in an eligible rollover distribution from an eligible retirement plan within the meaning of Code section 402(c)(8)(B), as may be amended from time to time, which includes an individual retirement account described in Code section 408(a), an individual retirement annuity described in Code section 408(b), a qualified trust described in Code section 401(a), an annuity plan described in Code section 403(a), an annuity contract described in Code section 403(b) or an eligible deferred compensation plan described in Code section 457(b) that is maintained by a state, political subdivision of a state, or an agency or instrumentality of a state or political subdivision of a state. Rollover amounts shall only be accepted for the purchase of service credit under the Plan if the Member provides all required documentation and complies with all applicable procedures. In addition, effective January 1, 2002, service credit purchases for “permissive service credit” (as defined in Code section 415(n)(3) (generally, additional service credit that is recognized in the calculation of benefits under the Plan and that is credited only after the Member makes a voluntary additional contribution that does not exceed the amount needed to fund the benefit attributable to the additional service credit) may also be made by a direct trustee-to-trustee transfer from a tax sheltered annuity plan under Code

section 403(b) or by a direct trustee-to-trustee transfer from a deferred compensation plan subject to Code section 457. Such direct trustee-to-trustee transfers shall satisfy the requirements of Code sections 403(b)(13), 457(e)(17), 415(k) and 415(n). All amounts transferred or rolled over for the purchase of service credit shall be allocated to the Member's contributions account under the Plan. Service credit purchases shall be initiated and payment received in full during membership in this Plan. A Member who purchases fewer than 60 months of service credit at one time shall be permitted to make another purchase no earlier than the first anniversary of the previous purchase of service credit; provided however, that if the Member's employment with the Member's Employer is terminated by the Employer involuntarily without cause before the first anniversary of the previous purchase of service credit, the one-year requirement shall be waived and the Member shall be permitted to make one purchase of additional service credit on account of the waiver of the one-year requirement. The one additional service credit purchase shall be initiated and full payment received while the Member is a member of the Plan. If the Member is again employed by an Employer, the Member may not make another purchase of prior service credit until after the first anniversary of the last purchase of service credit and the rules of this section shall again apply. Installment payments for service credit purchases are subject to the following provisions:

(i) The Member may elect to make the installment payments on a monthly, quarterly or annual basis with interest due at the interest rate specified in ARTICLE II, Section 3(c)(i); however, the period over which installment payments may be made shall not exceed the period equal to the total amount of service credit to be purchased. Installment payments may not be made through payroll deduction.

(ii) The installment payments must be paid on the dates required by the service credit purchase agreement. Failure to make timely installment payments shall cause the service credit purchase agreement to be canceled in its entirety, all payments received shall be returned to the Member, and the Member shall not receive credit for any service purchased under this ARTICLE IV, Section 7.

(iii) A separate contribution account shall be established for each Member who elects to make service credit purchases in installment payments. Installment payments and interest shall be credited to this separate account on the same basis as it is to the Member's Accumulated Contributions. After installment payments are completed, they may not be withdrawn.

(iv) Purchased service credit shall be credited to the Member upon completion of all installments due. However, if a Member terminates employment with the Employer for any reason (except for death), or becomes Disabled, and has not completed the service credit purchase, he shall have the option of making a lump sum payment for the balance of the remaining payments due or receiving service credit only to the extent payments have been made. Such lump sum payments shall be made within ninety (90) days of the Member's

termination of employment with the Employer or becoming disabled and before any benefit payments are distributed from the Plan.

(v) Upon the death of a Member prior to completion of the service credit purchase, the Beneficiary may elect either (1) to have the accumulated value of any installment payments made up to the date of death refunded to the designated Beneficiary, or (2) to make a lump sum payment equal to the balance due and receive death benefits based on the Member's Credited Service, including the purchased service. A lump sum payment, if any, shall be made within 120 days of the Member's death and before any benefit payments are distributed from the Plan.

(vi) Purchased service credit, once credited to the Member, shall be treated as Credited Service for all purposes of the Plan.

Section 8. Military Service. Notwithstanding any provision of this Plan to the contrary, contributions, benefits, and service credit with respect to qualified military service shall be provided in accordance with Code section 414(u) effective for reemployments initiated on and after December 12, 1994.

ARTICLE V

Retirement Dates

Section 1. Normal Retirement. The Normal Retirement Date of a Member hired after December 31, 2012 shall be the first day of the calendar month coincident with or next succeeding his 62nd birthday, but not before the completion of 96 months of continuous service. Section 5. Death of a Retired Member Before Accumulated Contributions Recovered. At the termination of Retirement Benefit payments following the death of a Retired Member, should the total of such payments made to the Member and his Beneficiary be less than the amount of the Member's Accumulated Contributions and interest at the date his Retirement Benefit payments commenced, the difference shall be paid in a single sum to the Beneficiary, if living, or to the estate of the last survivor of the Retired Member and his Beneficiary.

Section 6. Uniform Simultaneous Death Act. The provisions of any law of this State providing for the distribution of estates under the Uniform Simultaneous Death Act, when applicable, shall govern the distribution of benefits payable under this Plan.

Section 7. Designation of Beneficiary. If the Member or Terminated Vested Member is married and designates any person other than his spouse as the Beneficiary for any death benefit, such designation will not become effective unless his spouse consents in writing to such designation, acknowledges the effect of such designation and has such consent and acknowledgment witnessed by a Plan representative or a notary public. Such designation shall be made on the form furnished by the Retirement Board, and may at any time and from time to time be changed or revoked without notice to the Beneficiary or Beneficiaries (except as required with respect to the Member's spouse under the preceding sentence), and shall not be effective unless and until filed with the Retirement Board. If no beneficiary designation is on file with the Retirement Board at the time of death of the Member, or if such designation is not effective or valid for any reason, then the Member's Beneficiary shall be the Member's surviving spouse, or, if none, the Member's surviving children, and if none, the executor or administrator of the Member's estate.

Section 8. Additional Death Benefit for Retired Members. In the event of a Retired Member's death, there shall be payable to his designated Beneficiary, if living, (without regard to the spousal consent provisions of Section 7 of this Article) an additional death benefit in the amount of \$3,000.00, payable immediately after his death.

Section 9. Direct Rollover for Beneficiaries. The Member's Beneficiary may elect, at the time and in the manner prescribed by the Retirement Board, to have any portion of an Eligible Rollover Distribution paid directly to an Eligible Retirement Plan specified by the Beneficiary in a direct rollover.

For purposes of this Section 9, in the case of a surviving spouse, an Eligible Retirement Plan shall mean an individual retirement account or annuity as described in Code Sections 408(a) and (b), a Roth individual retirement account described in Code Section 408A, an annuity plan described in Code Section 403(a), an annuity contract described in Code Section 403(b), an eligible plan under Code Section 457(b) that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision that agrees to separately account for amounts directly rolled over to such plan, or the qualified trust of a defined contribution plan that accepts rollover contributions. For purposes of this Section 9, in the case of a non-spouse beneficiary, an Eligible Retirement Plan is an "inherited" individual retirement account that satisfies the requirements of Code Section 402(c)(11). If any part of an Eligible Rollover Distribution consists of after-tax amounts, the after-tax amounts may be transferred only to an individual retirement account or annuity described in Code Section 408(a) or 408(b) or, in the case of a surviving spouse, a qualified defined contribution plan described in Code Section 401(a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of the distribution that is includible in gross income and the portion of such distribution that is not so includible. For purposes of this Section 9, an Eligible Rollover Distribution shall mean the taxable portion of any distribution that is (1) not one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the recipient or the joint lives (or joint life expectancies) of the

Member and the Member's designated Beneficiary, or for a specified period of ten years or more, or (2) required under Code Section 401(a)(9).

Section 10. Latest Date for Commencement of Death Benefits. Death benefits to a Member's Beneficiary shall be paid at a time and in a manner consistent with the requirements of Code section 401(a)(9).

Section 11. Death While In Military Service. If a Member dies while performing qualified military service (within the meaning of Code Section 414(u)), the Member's survivors shall be entitled to any additional benefits (other than contributions and benefit accruals relating to the period of qualified military service) provided under the Plan as if the Member resumed and then terminated employment on account of death.

ARTICLE IX

If the Member fails to elect in writing either (a)(i) or (a)(ii) within 90 days after the date of termination of his employment, he shall be deemed to have elected to leave his Accumulated Contributions on deposit and to become a Terminated Vested Member. A Terminated Vested Member shall be entitled to a deferred Retirement Benefit which shall be equal to the Member's Accrued Benefit on his date of termination of employment. Such deferred Retirement Benefit shall be payable at the Terminated Vested Member's Normal Retirement Date, Regular Early Retirement Date, or Special Early Retirement Date. This Section 3(a) applies to (iii) Members who were hired or rehired prior to January 1 2013 and who do not return to employment with an Employer after termination of employment and (iv) to Members who are rehired on or after January 1, 2013 and who

(b) Eight or More Years of Credited Service. If Membership Service terminates prior to a Member's Normal Retirement Date, and he has eight or more years of Credited Service, he may elect in writing either (i) to leave his Accumulated Contributions on deposit in the Fund and become a Terminated Vested Member, or (ii) to receive, in lieu of all other benefits, subject to the spousal consent requirements of ARTICLE VII, Section 7, a distribution of his Accumulated Contributions. If the Member fails to elect in writing either (i) or (ii) within 180 days after the date of termination of his employment, he shall be deemed to have elected to leave his Accumulated Contributions on deposit and to become a Terminated Vested Member. A Terminated Vested Member shall be entitled to a deferred Retirement Benefit which shall be equal to the Member's Accrued Benefit on his date of termination of employment. Such deferred Retirement Benefit shall be payable at the Terminated Vested Member's Normal Retirement Date, Regular Early Retirement Date, or Special Early Retirement Date. This Section 3(b) applies to (i) Members who are new hires on or after January 1, 2013 and (ii) Members who are rehired on or after January 1, 2013 and who forfeited their unvested accrued benefit or took a withdrawal of their Accumulated Contributions and do not repay the amounts withdraw pursuant to Article IV, Section 4.

(c) Payment of Small Amounts. If the deferred Retirement Benefit to which a Terminated Vested Member will be entitled at his Normal Retirement Date or Special Early Retirement Date is less than \$150 per month, the Terminated Vested Member shall be paid, as of the date his employment terminates, a single sum equal to the Actuarial Equivalent of such deferred Retirement Benefit. Such single sum payment shall be subject to spousal consent pursuant to ARTICLE VII, Section 7 and shall be in lieu of all monthly benefit payments.

(d) Election of Distribution of Accumulated Contributions. A Terminated Vested Member may elect, subject to spousal consent pursuant to ARTICLE VII, Section 7 at any time prior to his Normal Retirement Date, to receive, in lieu of all other benefits, a distribution of his Accumulated Contributions and interest as of the date of the distribution.

(e) Commencement at Age 55. In lieu of receiving the deferred Retirement Benefit upon his Normal Retirement Date or Special Early Retirement Date, the Terminated Vested Member may elect to receive a reduced Retirement Benefit beginning upon the first of any month subsequent to his attainment of age 55. The reduction shall be $\frac{1}{4}$ of 1% for each month (3% per year) by which payments commence prior to the first of the month following his Normal Retirement Date.

Section 4. Nonreelection. If a Member who is an elected officer of the County is not reelected to the same office or elected to another County office or is not employed by the County within 30 days after his term of office expires, then the provisions of Sections 2 and 3, as applicable, shall apply.

Section 5. Direct Rollover. Notwithstanding any provision of the Plan to the contrary that would otherwise limit a Distributee's election under this Section, a Distributee may elect, at the time and in the manner prescribed by the Retirement Board, to have any portion of an Eligible Rollover Distribution paid directly to an Eligible Retirement Plan specified by the Distributee in a Direct Rollover.

For purposes of this section, the following terms are defined:

In the case of reemployment of a Retired Member who received any pension payments prior to his reemployment, the Pension payable upon his subsequent Retirement shall be reduced by the Actuarial Equivalent of the Pension payments, other than Disability Pension payments, he received prior to his Normal Retirement Date. Provided, however, that the Pension payable upon his subsequent Retirement shall never be less than the amount of the Member's Pension payable upon his earlier Retirement, modified to reflect any option in effect and elected by the Member at such later Retirement.

Section 3. Limitation of Benefits. Notwithstanding any other provision contained herein to the contrary, the benefits payable to a Member from this Plan provided by Employer contributions (including contributions picked up by the Employer), shall be subject to the limitations of Code Section 415 in accordance with (a) and (b) below:

(a) Defined Benefit Plan Only: Any annual Pension payable to a Member hereunder shall not exceed the lesser of:

(i) \$160,000, adjusted for increases in the cost of living, as prescribed by the Secretary of the Treasury or his delegate, effective January 1 of each calendar year and applicable to the Limitation Year ending with or within such calendar year, or, if greater, the amount of straight life, or qualified joint and survivor, annuity accrued by the Member as of December 31, 1982.

(B) Other amounts which received special tax benefits, or contributions made by the Employer (whether or not under a salary reduction agreement) towards the purchase of an annuity described in Section 403(b) of the Code (whether or not the amounts are actually excludable from the gross income of the Member).

(iii) Except as provided in (v) below, the foregoing limitations shall not be applicable with respect to any Member whose annual Pension under this Plan is less than \$10,000 if such Member has not at any time participated in any defined contribution plan maintained by the Employer.

The paragraph shall, to the extent required by the Secretary of the Treasury, be applied separately to each change in benefit accrual rate hereunder.

(1) for Limitation Years beginning on or after January 1, 2007, the greater of the annual amount of the straight life annuity (if any) payable under the Plan at the same Annuity Starting Date and the annual amount of the straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Member's form of benefit computed using an interest rate of 5% and the applicable mortality table under Code § 417(e)(3).

(2) for Limitation Years beginning before January 1, 2007, the annual amount of a straight life annuity commencing at the same Annuity Starting Date that has the same actuarial present value as the Member's form of benefit computed using whichever of the following produces the greater annual amount: (a) the interest rate and mortality table specified in the definition of "Actuarial Equivalent" in Article II, Section 3 for adjusting benefits in the same form, and (b) a 5% interest rate and the applicable mortality table under Code § 417(e)(3).

(B) Adjustment of Dollar Limitation for Benefit Commencement Before Age 62. If the benefit of a Member begins prior to age 62, the dollar limitation shall be adjusted pursuant to subsection (1) or (2), whichever is applicable:

(1) Limitation Years Beginning Before July 1, 2007. The dollar limitation for the Member's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Member's Annuity Starting Date that is the actuarial equivalent of the dollar limitation (adjusted for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount: (a) the interest rate and the mortality table specified in the definition of Actuarial Equivalent in Article II, Section 3; or (b) a 5% interest rate assumption and the applicable mortality table as specified in the definition of Actuarial Equivalent in Article II, Section 3.

(2) Limitation Years Beginning On or After July 1, 2007.

(a) If the Plan does not have an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the dollar limitation for the Member's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Member's Annuity Starting Date that is the actuarial equivalent of the dollar limitation (adjusted for years of participation less than 10, if required) with actuarial equivalence computed using a 5% interest rate assumption and the applicable mortality table for the annuity starting date as specified in the definition of Actuarial

Equivalent in Article II, Section 3 (and expressing the Member's age based on completed calendar months as of the Annuity Starting Date).

(b) If the Plan has an immediately commencing straight life annuity payable at both age 62 and the age of benefit commencement, the dollar limitation for the Member's Annuity Starting Date is the lesser of the limitation determined in accordance with (B)(1) and the dollar limitation (adjusted for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the Plan at the Member's Annuity Starting Date to the annual amount of the immediately commencing straight life annuity under the Plan at age 62, both determined without applying the limitations of Code § 415.

(C) Adjustment of Dollar Limitation for Benefit Commencement After Age 65. If the benefit of a Member begins after age 65, the dollar limitation shall be adjusted pursuant to subsection (1) or (2), whichever is applicable.

(1) Limitation Years Beginning Before July 1, 2007. The dollar limitation applicable to the Member for the Member's Annuity Starting Date is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Member's Annuity Starting Date that is the actuarial equivalent of the dollar limitation (adjusted for years of participation less than 10, if required) with actuarial equivalence computed using whichever of the following produces the smaller annual amount: (a) the interest rate and the mortality table specified in the definition of Actuarial Equivalent in Article II, Section 3; or (b) a 5% interest rate assumption and the applicable mortality table specified in the definition of Actuarial Equivalent in Article II, Section 3.

(2) Limitation Years Beginning On or After July 1, 2007.

(a) The dollar limitation applicable to the Member is the annual amount of a benefit payable in the form of a straight life annuity commencing at the Member's Annuity Starting Date that is the actuarial equivalent of the dollar limitation (adjusted for years of participation less than 10, if required), with actuarial equivalence computed using a 5% interest rate assumption and the applicable mortality table for that annuity starting date as specified in the definition of Actuarial Equivalent in Article II, Section 3 (and expressing the Member's age based on completed calendar months as of the Annuity Starting Date).

(b) If the Plan has an immediately commencing straight life annuity payable at both age 65 and the age of benefit commencement, the dollar limitation at the Member's Annuity Starting

Date is the lesser of the limitation determined in accordance with (2)(a) and the dollar limitation (adjusted for years of participation less than 10, if required) multiplied by the ratio of the annual amount of the adjusted immediately commencing straight life annuity under the Plan at the Member's Annuity Starting Date to the annual amount of the adjusted immediately commencing straight life annuity under the plan at age 65, both determined without applying the limitations of Code § 415.

(D) The interest assumption for purposes of determining actuarial equivalency under this subsection (vi) shall be the interest rate otherwise used for purposes of computing optional forms of income payable under the Plan, but the rate shall not be less than 5% annually if benefits commence before age 62 and shall not exceed 5% annually if benefits commence after age 65.

(E) Effective for distributions with annuity starting dates on or after December 31, 2002, the mortality table used for purposes of determining actuarial equivalence under this subsection (vi) shall be the mortality table required under Section 415(b)(2)(E)(v) of the Internal Revenue Code and administrative guidance issued by the Secretary of the Treasury or the Internal Revenue Service.

(vii) In no event shall a Member's maximum annual Pension allowable under this Section be less than the annual amount of Pension (including Early Retirement Benefits and qualified joint and survivor annuity amounts) duly accrued by such Member under Code Section 415 limitations then in effect as of December 31, 1982, or as of December 31, 1986, whichever is greater (disregarding any plan changes or cost-of-living adjustments occurring after July 1, 1982, as to the 1982 accrued amount, and May 5, 1986, as to the 1986 accrued amount).

(viii) For Limitation Years beginning on and after January 1, 1995, the provisions of subsections (iv), (v), and (vi)(B) shall not apply to Disability retirement benefits under ARTICLE V, Section 4, and ARTICLE VI.

(b) Defined Benefit and Defined Contribution Plans: If, in any Limitation Year a Member also participates in one or more defined contribution plans maintained by the Employer, then for such Limitation Year, the sum of the Defined Benefit Plan Fraction and Defined Contribution Plan Fraction (as described below) for such Limitation Year shall not exceed one. The Defined Benefit Fraction for any Limitation Year shall mean a fraction (i) the numerator of which is the projected annual benefit of the Member under the Plan (determined as of the close of the Limitation Year), and (ii) the denominator of which is the lesser of 125% of the dollar limitation under Code Section 415(b)(1)(A) or 140% of the percentage limitation under Code Section 415(b)(1)(B) for the year of determination (taking into account the effect of Section 235(g)(4) of the Tax Equity and Fiscal Responsibility Act of 1982). The Defined Contribution Fraction for any Limitation Year shall mean a fraction (i) the numerator of

which is the sum of the annual additions (as defined in Section 415(c)(2) of the Code) to the Member's accounts under all defined contribution plans maintained by the Employer as of the close of the Limitation Year (subject to reduction to the extent permitted under the transition rule in Section 235(g)(3) of the Tax Equity and Fiscal Responsibility Act of 1982), and (ii) the denominator of which is the sum of the lesser of 125% of the dollar limitation under Code Section 415(c)(1)(A) or 140% of the percentage Limitation under Code Section 415(c)(1)(B), for such Limitation Year and for all prior Limitation Years during which the Member was employed by the Employer (provided, however, at the election of the Committee, the denominator shall be increased by using for Limitation Years ending prior to January 1, 1983, an amount equal to the denominator in effect for the Limitation Year ending in 1982, multiplied by the transition fraction provided in Code Section 415(e)(6)(B)).

If, in any Limitation Year, the sum of the Defined Benefit Plan Fraction and Defined Contribution Plan Fraction for a Member would exceed one without adjustment of the amount of the maximum annual Pension that can be paid to such Member under paragraph (a) of this Section, then the amount of the maximum annual Pension that can be paid to such Member under paragraph (a) of this Section, shall be reduced to the extent necessary to reduce the sum of the Defined Benefit Plan Fraction and Defined Contribution Plan Fraction for such Member to one, or the Retirement Board may take such other actions as will cause the sum to equal one or less.

For purposes of this Section, the Limitation Year shall be the calendar year.

(c) Repeal of Combined Plan Limit. The preceding subsection (b), Defined Benefit and Defined Contribution Plans, shall be repealed, effective for Limitation Years beginning on and after January 1, 2001. The Employer does not, and has not, maintained a defined contribution plan.

(d) Certain Repayments Disregarded. As provided in Code § 415(k)(3), repayments (including interest or earnings) of contributions previously refunded upon a forfeiture of prior service credit shall not be taken into account for purposes of applying the limits under this Section 3.

Section 4. Consolidation or Merger. The Plan shall not be merged or consolidated with, nor shall any assets or liabilities be transferred to any other Plan, unless the benefits payable to each Member if the Plan were terminated immediately after such action would be equal to or greater than the benefits to which such Member would have been entitled if this Plan had been terminated immediately before such action.

Section 5. Latest Date for Commencement of Payment of Benefits. Distribution of a Member's Accrued Benefit must be made or must commence no later than the Required Beginning Date. The Member's Required Beginning Date is April 1 of the calendar year following the later of the calendar year in which (a) the Member attains age 70½ or (b) retires.

With respect to distributions under the Plan in calendar years beginning or after January 1, 2001, the Plan will apply the minimum distribution requirements of section 401(a)(9) of the Internal Revenue Code in accordance with the regulations under section 401(a)(9) that

were proposed in January 2001, notwithstanding any provision of the Plan to the contrary. This paragraph shall continue in effect until the end of the last calendar year beginning with the effective date of the final regulations under section 401(a)(9) or such other date specified in guidance published by the Internal Revenue Service.

All distributions that commence on or after January 1, 2003 shall satisfy the requirements of the final regulations promulgated under Code § 401(a)(9) (Treas. Reg. § 1.401(A)(9)-2 through 1.401(a)(9)-9), including the incidental benefit requirement of Code § 401(a)(9)(G).

ARTICLE XVI

Adoption and Withdrawal by Other Governmental Organizations

Section 1. Procedure for Adoption. Any governmental organization with employees, now in existence or hereafter formed, which is not already an Employer under this Plan and which is otherwise legally eligible, may, in the future, with the consent and approval of the Retirement Board, by formal resolution of its own governing body, adopt the Plan and the related Trust, for all or any classification of persons in its employment, and thereby, from and after the specified effective date become an Employer under this Plan. Such adoption shall be effectuated by and evidenced by a formal designation resolution of the Retirement Board, and by such formal resolution of the adopting organization consented to by the Retirement Board. The adoption resolution may contain such specific changes and variations in Plan or Trust terms and provisions applicable to such adopting Employer and its employees, as may be acceptable to the Retirement Board and the Trustee. However, the sole, exclusive right of any other amendment of whatever kind or extent, to the Plan or Trust is reserved by the Retirement Board. The adoption resolution shall become, as to such adopting organization and its employees, a part of this Plan, as then amended or thereafter amended, and the related Trust. It shall not be necessary for the adopting organization to sign or execute the original or the amended Plan and Trust documents. The effective date of the Plan for any such adopting organization shall be that stated in the resolution of adoption, and from and after such effective date such adopting organization shall assume all the rights, obligations and liabilities of an individual Employer entity hereunder and under the Trust. Such adopting Employer shall be responsible for the Employer contribution on behalf of its employees. The administrative powers and control of the Retirement Board, as provided in the Plan and Trust, including the sole right to amendment and resolution of disputes between and/or among Employers shall not be diminished by reason of the participation of any such adopting organization in the Plan and Trust.

Section 2. Withdrawal by an Employer.

(a) Withdrawal. Each Employer reserves the right at any time and for any reason satisfactory to it to withdraw from participation in the Plan and to discontinue permanently all contributions by the Employer under this Plan by action of its governing body and by giving a written notice to the Retirement Board and the Trustee. Such withdrawal and discontinuance shall be deemed to be a complete termination of the Plan as to the Employees of the withdrawing Employer. Any Employer withdrawing from participation in the Plan shall comply with applicable Federal law and shall follow all procedures set forth in Colorado Revised Statutes, section 24-54-106(2), including but not limited to:

(i) filing with the Retirement Board a resolution of the Employer's governing body stating the Employer's intent to withdraw from the Plan and adopted not less than 90 days prior to the effective date of the withdrawal unless the Retirement Board authorizes a shorter period, and

- (ii) obtaining and certifying to the Retirement Board the vote of at least 65% of all active Members employed by the Employer and participating in the Plan at the time of the election,

The Retirement Board may, in its absolute discretion, terminate an adopting Employer's participation at any time when in its judgment such adopting Employer fails or refuses to discharge its obligations under the Plan. Such action shall comply with all requirements of federal and state law and shall take effect on the first day of the month specified by the Retirement Board.

(b) Action by Retirement Board. As provided in Colorado Revised Statutes section 24-54-106(2)(e), the Retirement Board shall approve all requests for withdrawal that satisfy all of the requirements of Colorado Revised Statutes section 24-54-106(2) and shall not approve any request for withdrawal that does not satisfy all of such requirements. An approved withdrawal shall take effect on the first day of the month specified in the Employer's notice to the Retirement Board.

(c) Vesting. To the extent required by applicable provisions of the Code, on termination of an Employer's participation in the Plan or upon complete discontinuance of contributions, each Member who is or was an Employee of the withdrawing Employer shall become fully vested in the Member's accrued benefit with respect to the withdrawing Employer to the extent funded as of the date of termination or contribution discontinuance.

(d) Reserves Requirement. The Board shall determine the amount of reserves required as of the effective date of termination of affiliation to maintain current benefits payable to the withdrawing Employer's retired Members and to preserve the vested rights of the withdrawing Employer's inactive Members. The amount of reserves shall be determined by the Board using certified actuarial reports prepared by the actuary for the Plan. The actuarial report shall also certify that the termination of affiliation shall not have an adverse financial impact of the actuarial soundness of the trust fund. If the actuary determines, in accordance with accepted actuarial principles, that the termination of affiliation shall have an adverse financial impact on the actuarial soundness of the trust fund, then the Employer shall not be permitted to withdraw from the Plan. On the effective date of the withdrawal, the actuarial reports prepared pursuant to this Section 4(d) shall be updated to finalize the amount of reserves required for the purposes specified in this section 4.4(d). The withdrawing Employer and its Employees shall not be required to make any contributions to the Plan after the effective date of the withdrawal. The expenses incurred by the Board for the actuarial reports required by this section 4.4(d) shall be paid by the Employer that has applied to withdraw from the Plan. The Board shall provide any information contained in such actuarial reports upon request of the Employer making the application for termination of affiliation.

(e) Inadequate Reserves; Excess Reserves.

(i) Inadequate Reserves. If the amount of reserves required pursuant to this Section 4(d) exceeds the amount of the Employer's share of the reserves

attributable to Employer contributions in the trust fund as calculated by the actuary, the withdrawing Employer shall make an additional payment as of the effective date of the withdrawal in an amount equal to the difference between the amount of reserves required and the amount of reserves in the trust fund.

(ii) Excess Reserves. If the amount of reserves on deposit in the trust fund as calculated by the actuary for the Employer requesting withdrawal exceeds the amount of reserves required pursuant to this Section 4(d), the excess amount shall be either (A) transferred by a direct trustee-to-trustee transfer to the qualified retirement plan established by the withdrawing Employer or (B) if the Employer does not establish a qualified retirement plan, paid to the withdrawing Employer but only if the excess results solely from erroneous actuarial calculations. If (B) is not satisfied, then the excess shall be used to increase benefits, but not more than the Code Section 415 limit, for the Members who are or were Employees of the withdrawing Employer.

(iii) Failure to Pay. If any payment required by Section 4(e) is not made on a timely basis, interest shall be assessed at the rate specified in Article II Section 2(c)(i) of this Plan.

(f) No Liability for Plan. This Plan shall not be liable to any person for any claim or loss of benefits resulting from the termination of an Employer's participation in the Plan or the failure of an employer to make required contributions or payments under the terms of the Plan.

(g) Establishment of a New Plan.

(i) New Plan. The withdrawing Employer may establish a new qualified retirement plan for its Employees. If it does so, the Accumulated Contributions of its Members and its reserves shall be transferred in a trustee-to-trustee transfer to the new plan. The new plan shall then have full responsibility for the payment of all benefits including benefits of terminated and retired Members.

(ii) No New Plan. If the withdrawing Employer does not establish a new plan, this Plan shall continue to pay the benefits of Members who were Employees of the Employer that are in pay status on the date the withdrawal becomes effective. Each other Member shall become fully vested in his or her benefit and is eligible to receive a distribution of his or her benefit in a lump sum distribution or to receive a retirement benefit under this Plan at his Early Retirement Date, if applicable, or his Normal Retirement Date, as the Member elects.
